

REMARKS

The purpose of the foregoing request for Amendment under 37 CFR 1.312 is to more particularly point out the subject matter of the claimed invention. Applicants have added new claims 27-58 (each of which provides an individual compound set forth in the Markush group of claim 11), and 59-143 (each of which provides an individual compound set forth in the Markush group of claim 26). No new matter is presented by the amendment.

Thus, the newly presented claims have the same scope as allowed claims 11 and 26. The instant amendment does not change the scope of the previously allowed claims and should be entered at this time.

If it is determined that a telephone conference would expedite the prosecution of this application, the Examiner is invited to telephone the undersigned at the number given below.

In the event the U.S. Patent and Trademark Office determines that an extension is required, applicant petitions for any required relief including extensions of time and authorizes the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No. 04-1105 referencing docket no. 58288(72021).
